What are the courses in 4-year Engineering leading to B-Tech degree?

Process Documents

The 4-year courses in Engineering/Technology leading to the award of B.Tech. (Hons.) Degree are:

1. Aerospace Engineering
2. Agricultural and Food Engineering
3. Biotechnology and Biochemical Engineering
4. Chemical Engineering
5. Civil Engineering
6. Computer Science and Engineering
7. Electrical Engineering

(TABLE – 2.1)

How we can change branch?

Process Documents

To change a branch, the following rules and conditions apply:

Eligibility:

- Only students admitted to B.Tech.(Hons.) / Dual Degree / Integrated M.Sc. Programs through JEE(Advanced) are eligible (Context).
- The change of branch is a privilege, not a right (Context).

Conditions for Consideration:

- The student must have completed all the credits prescribed in the first two semesters (Context).

Application Process:

26°C Light rain

Search

ENG IN

9:26 AM 3/31/2026

Streamlit | IITKGP_Academic_Rules_Regulaion

localhost:8501

Deploy

Application Process:

- Students may enlist up to TEN (10) choices of branch, in order of preference (Context).
- It is not permissible to alter the choices after the application has been submitted (Context).

Selection Basis:

- Change of branch shall be made strictly on the basis of inter se merit of the applicants (Context).
- For this purpose, the GPA scored, excluding the subjects mentioned in Table 1.1 at the end of the Second (Spring) Semester, shall be considered (Context).
- Ties will be resolved based on criteria not specified in the provided context (Context).

Constraints and Special Cases:

- Applicants with a GPA equal to or greater than 8.00, excluding subjects in Table 1.1 at the end of the Second (Spring) Semester, may have their change of branch request made without any constraint on the number of seats (Context).
- For remaining applicants, a change of branch is allowed strictly in order of inter se merit, subject to the limitation that the actual number of students in the Third (Autumn) Semester in the new branch does not exceed a certain limit (Context). The specific limit is not provided in the context.
- The Senate may, under very special circumstances, permit the transfer of a student from one branch to another (Context).

- The Senate may, under very special circumstances, permit the transfer of a student from one branch to another (Context).

Finality of Decision:

- All changes of branch will be final and binding on the applicants (Context).
- No student will be permitted, under any circumstances, to refuse the change of branch offered (Context).
- No changes of branch shall be permitted after the initial offer (Context).

How students can opt for subjects from other department?

Process Documents

Students can opt for subjects from other departments under specific conditions related to "Open elective I" and "Open elective II" slots:

For Open elective I:

- Students must have registered for a minor/Micro-Specialization, and the subject chosen from another department must be a requirement for that minor/Micro-Specialization (15.5).

For Open elective II:

- Students must have a CGPA ≥ 8.0 (15.5).
- Students registered for a minor/Micro-Specialization may use this slot to opt for a subject required for their minor, or for a subject from other departments as they desire (15.5).

How CGPA and SGPA are calculated?

Process Documents

A Semester Grade Point Average (SGPA) is computed for each semester using the following formula [Context]:

$$SGPA = \frac{\sum_{i=1}^{n} c_i g_i}{\sum_{i=1}^{n} c_i}$$

Where [Context]:

- 'n' is the number of subjects registered and cleared for the semester.
- 'c_i' is the number of Credits allotted to a particular subject.
- 'g_i' is the grade-points carried by the letter corresponding to the grade awarded to the student for the subject.

The SGPA will be rounded off to the second place of decimal [Context].

26°C Light rain | Search | ENG IN | 9:42 AM 3/31/2026

- 'g_i' is the grade-points carried by the letter corresponding to the grade awarded to the student for the subject.

The SGPA will be rounded off to the second place of decimal [Context].

A Cumulative Grade Point Average (CGPA) is computed for every student starting from the second semester at the end of each semester 'S' [Context]. The CGPA is calculated as follows [Context]:

$$CGPA = \frac{\sum_{i=1}^{m} c_i g_i}{\sum_{i=1}^{m} c_i}$$

This calculation will be based on all the subjects registered from the first semester up to the end of the semester to which it refers [Context].

If a student receives an 'F' grade in any subject, the SGPA and CGPA from that semester onwards will be tentatively calculated using 'zero point' for each 'F' grade. Once the 'F' grade(s) are substituted by better grades in a subsequent semester, the SGPA and CGPA of all affected semesters will be recalculated [Context].
